

Shower Quote Check List

Below is a check list to use when sending a shower to MWGF for quoting. If the information is not provided in full, we will be unable to expedite your quote request. One of our shower quote team will email asking you to provide all missing data. This will create a delay in the quoting process. Please understand to best service all customers we time and date stamp all requests. Your original date and time will be adjusted to the timeframe we receive the missing information.

- Include a sketch of the layout with all information needed to quote correctly. See examples in our shower FAQ section of our website. Sketches for layouts with information necessary to quote.
- Provide tight centerline opening measurements. If you are providing cut sizes, you will need to provide your hardware list and location required on each piece. Please see the example sketches – to avoid erroneous quotes please make sure to supply all custom information.
- The first quote request for a job - you should receive the quote within 24 hours.
 - Revision 1 can take up to 24 hours.
 - Any additional revisions could take up to 48 hours.
 - Over 3 revisions for the same job will require a po for design time at the cost of \$50.00 per future revision.
- We respectfully request all revisions be emailed; the shower team is unable to take a revision over the phone.
- Showers that are out of spec will be reviewed by our collective team. MWGF's quote team is trained to quote the safest shower possible within GANA and ASTM guidelines.
- We will always try to quote within your customers' design request. If the design does not fall into spec, the quote team will determine if there is flexibility in the design that will not put the end user at any unsafe risk. Under certain circumstances MWGF may produce this without a warranty.
- Unsafe enclosures, MWGF will decline to bid. The MWGF shower team will work with you to try to design a safe enclosure. There is a cost for the design time. Cost will be determined based on the time necessary to redesign.
- Please refer to Midwest Glass Fabricators terms and conditions for additional information.
